Sponsorship Opportunities & Benefits

At State of the Net 2024, we'll dive into the most pressing policy issues. Congressional and federal leaders will engage with stakeholders on issues such as broadband, consumer privacy, content moderation, election security, artificial intelligence, and many more.

As always, State of the Net will be your first look at the new players and the new issues that will take center stage in 2024. This conference is unique for its diverse blend of perspectives and provocative thinkers. As policy debates become more polarized, State of the Net is the most important stakeholder gathering which brings together key players who disagree (respectfully). That's the point.

The State of the Net Conference attracts more than 700 attendees at **Convene, 600 14th Street, NW**, and livecast, which provides unparalleled opportunity for your company to demonstrate leadership, network with policymakers, and engage an influential audience on key Internet policy issues. This conference, the largest Internet policy conference in the U.S., enables the dialogue between public interest advocates, nonprofits, and the business community toward the goal of educating policymakers about the importance of mobile technology in promoting communications, commerce and democracy. Sponsors of the State of the Net use this opportunity to elevate their brand and visibility as leading Internet stakeholders.

The 2024 State of the Net Conference Will Feature

- In-depth discussions with **leading Internet policy experts** representing all pillars of the internet policy platform with panel tracks focusing on privacy/security, telecommunications regulation, intellectual property, and innovation.
- Opportunity to interact with **Congressional Staff and Federal Policymakers** representing a broad range of government agencies.
- One stop shop for dialogue and connecting with a leaders and **advocates from across the political spectrum**.
- Special business **networking** and meeting area within the conference space.
- Influential **media** presence and C-SPAN broadcast.
